Recovery Happens is a community-based event that takes place in September each year in Riverside County as part of National Recovery Month. **Recovery Happens** is sponsored by Riverside University Health System – Behavioral Health, Substance Use Programs. The Substance Use Program served more than 9,400 people during 2014 - 2015 in County-operated substance use clinics and through services provided by private providers at more than 45 sites across Riverside County. **Recovery Happens** is intended to help unite those already in recovery and spread the message that prevention works, treatment is effective, and people recover. For more information about Substance Use Programs of Riverside University Health System – Behavioral Health, visit www.rcdmh.org. Now in its 27th year, **National Recovery Month** was established to highlight individuals who have reclaimed their lives and are living happy and healthy lives in long-term recovery. **National Recovery Month** also honors the prevention, treatment, and recovery service providers who make recovery possible. This document is available in alternative formats upon request. If you are in need of a reasonable accommodation, please contact **Richard Bolter, (951) 737 – 2962** or RBolter@rcmhd.org.
